

Class 1

Autumn Term

Chalk pictures created at the start of term during 'Ourselves' topic.

Painting with spices during senses week.

Exploring and building in the outside area.

We have had a fantastic first term in Class 1, learning lots and having a lot of fun! We have all settled into school life brilliantly and have been so busy learning new skills and building friendships.

We have looked at a range of topics this term. Starting with learning about ourselves and how our bodies work. Moving on to looking at the season of Autumn and the different festivals that fall during this time. Becoming vegetable loving superheroes during our Supertato topic. Finally, learning all about the nativity story and the meaning of Christmas.

Class 1 worked really hard on their production "Christmas Eve Kerfuffle" learning lines, practicing songs and performing to all their parents. They did an amazing job!

We are greatly looking forward to our next term where we will be starting with the topic, 'People who help us'. This topic was chosen by the children and will look at a range of people in our community and their jobs.

The class have spent lots of time building relationships in the classroom and learning how to be part of a team.

Christmas
