

Class 5

Autumn Term

This term, Class 5 have been very busy. In our English lessons, we have had a wealth of experience in writing. We have written persuasive advertisements to encourage customers to buy a car; created our own descriptive settings; read and invented WW1 poetry; and written flashbacks.

As part of our Religious Studies topic, Class 5 have been learning about how the bible portrays God; we have also investigated the five pillars of Islam and how these affect a Muslim's life.

This term in our History lessons, we have studied the history of the Burton Brewery; we went on a school trip to the brewery centre to learn about how the brewery once functioned.

Class 5 have been learning about zones around the world in Geography. We have researched different continents and compared them.

In D.T this term, we have designed our own fairground rides. This included drawing our own plans; developing these designs on a laptop using CAD software; and building the rides using wood, art straws and other materials.

During Class 5's Science lessons, we have investigated states of matter and forces. As part of these topics, we were able to build our own parachutes to test the effects of air resistance.

Next term, we will be learning about Ancient Greece in History; natural resources in Geography; the life cycles of living things in Science; and computer programming in IT.

In the new year, we will also begin the construction of our Green Goblin electric car which we are all very excited about!

Burton Brewery Class 5 trip - Nov 2018
